GlobalCare Inc announces American CareSource Holdings as new addition to suite of services

Alpharetta, GA, May 1, 2010 - GlobalCare Inc., announced today that it has implemented an agreement with American CareSource Holdings, Inc. to provide its payers with the ability to properly access their provider network as an integral component of its PPO network optimization and workflow process management services.

American CareSource Holdings, Inc. ("ACS"), is the nation's leading ancillary care system and has a commitment to provide the best quality healthcare at the lowest cost to the patient. ACS's proven ability to reduce the costs of ancillary care makes them an ideal partner for GlobalCare.

Carol Lockwood, Vice President of Operations for GlobalCare said, "The addition of ACS's 31 service categories and 33,000 provider sites will give our members a greater breadth and depth of service opportunities while providing them with significant discounts over the same services provided in the hospital or physician office setting."

American CareSource Holdings, the first national, publicly traded ancillary care network services company, offers a comprehensive national network of over 4,100 ancillary service providers at more than 33,000 sites through its subsidiary, Ancillary Care Services. Ancillary Care Services provides ancillary health care services through its network that offers cost effective alternatives to physician and hospital-based services. This market is estimated at \$574 billion and has grown to over 20% of total national health expenditures. These providers offer services in 31 categories including laboratories, dialysis centers, free-standing diagnostic imaging centers, non-hospital surgery centers, as well as durable medical equipment such as orthotics and prosthetics and others. For additional information, please visit www.anci-care.com.

GlobalCare Inc is a Georgia based corporation providing network management and cost containment services for over 15 years, with its headquarters in Alpharetta, GA. Our core business is to maximize the savings on every medical claim by steering members into the most appropriate level of care at the time of any medical event. GlobalCare delivers network optimization and work flow management to return the greatest discounts with the lowest transaction costs. Through the deployment of proactive, interventionist measures medical costs are controlled at the outset. Payers attain greater efficiency both operationally and financially through utilization of GlobalCare's proprietary technology. Visit www.globalcare.net for more information.
