GlobalCare Inc announces Anne Nordstrom as new Data Quality Assurance Analyst

February 15, Alpharetta, Ga - GlobalCare is pleased to announce the addition of a dedicated Data Quality Analyst, Anne Nordstrom, to our network team.

Ms. Nordstrom holds a Bachelor of Arts degree in Economics and Sociology and she joins GlobalCare with an extensive background in database management. Nordstrom has superior analytical skills and is accustomed to handling up to 20 million data records a week.

Nordstrom's main role at GlobalCare will be to manage marketing and demographic data that is received from GlobalCare's PPO network partners. She will manage this data through the creation of proprietary databases as well as the utilization of a propriety network optimization tool. She will work closely with our internal sales and account management teams to assist them in making the best network selection for our clients and prospects. She will also work with our network partners when additional analysis is required such as GEO and repricing analyses.

Cheryl Aitken, GlobalCare's Medical Network Manager, states, "I am excited to have Anne as part of our team, she is a 'quick study' and fully embraces GlobalCare's mission to deliver the greatest savings available to the payer of medical claims, as easily as possible. The analyses we perform for our clients helps us ensure we have maximized their access and savings and Anne will play a key role in ensuring the accuracy of those results. Anne's ability to understand healthcare data and how it can be used to benefit our clients, will prove to be a great asset."

This new role will report to the Medical Network Manager.

GlobalCare Inc is a Georgia based corporation providing network management and cost containment services for over 15 years with its headquarters in Alpharetta, GA. Our core business is to maximize the savings on every medical claim by steering members into the most appropriate level of care at the time of any medical event. GlobalCare delivers network optimization and work flow management to return the greatest discounts with the lowest transaction costs. Through the deployment of proactive, interventionist measures medical costs are controlled at the outset. Payers attain greater efficiency both operationally and financially through utilization of GlobalCare's proprietary technology. Visit www.globalcare.net for more information.
