JMS & Associates and GlobalCare partner to market fully integrated claims processing solutions to healthcare Payors

Alpharetta, GA June 6, 2008 – JMS & Associates and GlobalCare announced today an agreement to deliver an integrated claims management solution to facilitate claims acquisition, routing and repricing of medical claims for Payors.

Claim processing continues to become more complex as Payors require access to growing lists of trading partners to optimize medical savings. Faced with limitations in system capabilities and operational resources there is a growing demand for business outsourcing which integrate value-added services without capital investments from the administrator.

“The solution is an Integration model where the claim is managed up to the adjudication and payment process,” states Chuck Agrusa, President of JMS and Associates, Inc. “With GlobalCare we have found the ideal partner who can optimize both the Primary and Secondary network for access and discount, and combined with our information management we now deliver a seamless, integrated capability”.

Robert Marcoux, Vice President of Marketing & Sales, GlobalCare, “Today, more than ever Payors have to demonstrate that they will deliver better medical savings and achieve this with lower transaction costs to remain competitive. We are excited to work with JMS & Associates as they have a proven reputation of excellence in managing both paper and electronic claims that reduce both costs and turn-around”

Through a single interface, Payors can now have 100% of their claims converted to standard ANSI 837/4010 files with archival/retrieval of claim images and attachments, a customize Primary and Secondary network solution per covered life, claims routed and re-priced by over 150 networks for maximum savings and electronically returned to the Payor or to any trading partner. The benefit, Payors see claims only one time completely converted and properly repriced

JMS and Associates, Inc (JMS) is a Michigan based corporation doing business for over 30 years with its headquarters located in Farmington Hills Michigan. Services are provided and supported by over 300 personnel worldwide. Stateside processing centers are located in Michigan and Illinois and additional Sales Support personnel are located in the Boston Massachusetts, Phoenix Arizona, and Los Angeles California regions.
